Q Anon: (3/2/18) Continued from Wednesday's thread. FRiendly Freeper Collaboration

This thread is a friendly collaborative place for FReepers to analyze information and share opinons. FReepers have a wide variety of reasons for investigating Q Anon content; this is not the appropriate place to criticize or badger those who choose to use some of their time in this manner.

This thread is a continuation of the prior Q Anon thread located here:

<http://freerepublic.com/focus/chat/3635959/posts>

I plan to post one thread at a time and ping new drops posted to it. The current schedule is to post new threads Monday, Wednesday, and Friday. When I post each (new) thread, the prior thread is retired and all new posts occur on the newest thread.

If you are new to Q Anon, the three links below provide overviews to help answer the questions, "Who is Q?" and "Why read Q drops?".

[Is Trump Staging a Counter-Coup? \[Q explained?\]>](#)

[Note: The above thread has been locked for disruptive comments, but post #1 includes a strong, concise Who/What/Where overview.](#)

[Q Anon: A Freeper's post re the "new Parallel Construct that Trump has created"](#)

[First post to "Q" ping list. Please read and let me know if you want off or on it](#)

We're having trouble with the websites that we normally access to check for Q drops. For now, Q "drops" (i.e., posts) can be read with their original formatting at the following link:

<http://www.thestoryofq.com/>

You can locate my Q Anon threads by searching the key words "Q Anon" or "Qanon" using the search window in the upper right of the Free Republic's forum page. The active Q Anon thread will be shown at the top (newest) of the search results.

I stored links to many prior Q Anon threads in my profile page located here:

<http://freerepublic.com/~ransomnote/>

Q drops (i.e., posts) often use acronyms. A few FReepers have begun to organize acronym into helpful reference materials. Here is Swordmaker's list of acronyms for your reference: [A FReeper list of acronyms used in Q Anon "drops."](#)

SkyPilot has been collecting Q Anon information into one interesting, detailed, "story of Q" post which I'll place here:

<https://www.freerepublic.com/focus/chat/3633313/posts?page=163#163>

President John F. Kennedy's excellent speech regarding secret societies, as well as comments about the press, is located at the following link. <https://www.youtube.com/watch?v=zdMbmdFOvTs>

A helpful FReeper passed along the following link. It's to a group that goes live on Youtube when Q drops are released. I'll put the link to their general Youtube "channel" here. When new Q drops are released, they start a new live stream video which remains active as long as they have new insights or information or guests to share information. You can look for any live stream videos in progress or recordings of their prior videos at the link.

Add this to the lexicon's revision:

- **Bridge, The** (#827, #834) 1: With Q's comment in drop #834 "The BRIDGE." followed by "187" and then "The BRIDGE-2." followed by "@Snowden.", we have a hint that the Bridges are people who leaked data from secret computer sources to Wikileaks and the first one was murdered (187). That Bridge was likely Seth Rich. 2: Possibly Stanislav Lunev,

highest ranking GRU (think KGB) officer, a Colonel, to ever defect to the United States. Now in the Federal witness protection program. Works with the CIA and FBI. 3: Possibly biographic book on Barack Obama by David Remnick.

I went back and read the research board for that day. Q was taunting someone possibly a Rothschild. Whoever it was, he said we tried to warn you, and the following post was when he posted the message that ended with suicide weekend?

One of the Anons noted that a Rothschild deleted a twitter message - I think that was the one that was a laughing twitter.

Yeah Dilley was right about this... This one vindicates him a little, His local videos for campaign he was saying she was corrupt and pointing out how in previous positions too but nobody would listen, before voting. Thus the 800 votes, he was made out to be the loony one.

Corruption everywhere we look... I just found out the school addition I drew last summer was starting to get built and the contract got cancelled because they discovered some hanky panky went on in the contract procurement stages. Another architectural firm we used to work with is in DEEP trouble and could have 20 million in fines if that were the number the contractor had spent for work performed, pre-ordering materials, paying salaries etc. Pretty sure they will close their doors and be done. This has nothing to do with what we did for our school, but The other architects had another school project in this same Scottsdale school district, with same contractor doing both I think is why that stopped both of these jobs because the city of Scottsdale is the client and first named in the suit. They will counter sue the professional consultants and win and the fine is automatic, it will be the actual monetary loss in the contract administration for the past almost 6 months now. Our addition was supposed to be open for the upcoming school year and was on a tight schedule as it was.

Personally, I think Las Vegas was an attempted attack on Dopey's opponents. Paddock perhaps was supplying the weapons. Something went awry. They didn't want the news cycle to focus on Vegas and uncover Paddock's ties to CIA, Pakistan, and the House of Saud. Don't know the exact details - not enough info released.

In this part of the speech quoted below, Obama talks as though he's opposed to what Snowden did. This tells us he was actually in favor of it. So Snowden is a black hat, after all.

"I'm not going to dwell on Mr. Snowden's actions or his motivations; I will say that our nation's defense depends in part on the fidelity of those entrusted with our nation's secrets. If any individual who objects to government

policy can take it into their own hands to publicly disclose classified information, then we will not be able to keep our people safe, or conduct foreign policy."

Exacly my thoughts as well!

Since it's now obvious that everything Obama said in that speech was exacly opposite of what was really happening at the time, we can be sure the part about Snowden was disinformation also.

This is why Q referenced it - it puts his all of Snowden references in a much more clear light.

Newer revision of the Q Lexicon, as of February 4, 2018, 3:19 AM Pacific Time

Looking for who or what RS is.

A Comprehensive Q Lexicon of Acronyms of Cited Organizations and Persons

Compiled and edited by Swordmaker

ENTRIES LEADS IN RED are new since last version posted as suggested by Freeper stylin19a , thanks for the idea.

Please [Freepmail me](#) with any corrections, suggestions, questions, or noted errors, thanks.

Note, names are alphabetized as they appear in the Q drops, which is usually first name, last name, for ease of finding them in the list and to keep them together as much as possible with their initials when Q has mixed names with initials.

Now includes Q Drop number of first citation use.

Q says spelling and sentence structure is deliberate. That means that almost all strange words in upper case are likely acronyms. For that reason it is likely "BOOM" without an exclamation point must be an acronym, not an explosion. "CLAS" is not a contraction of "classified" but also an acronym, etc. so I'm doing research on the most fitting acronyms. If you find a fitting apt acronym, let me know.

Drop #34: November 1, 2017 is the first appearance of term "Q Clearance Patriot".

NOTE: It has been determined that Timestamps on Q Drops are not absolute. The hour changes according to the viewer's time zone. I.e. Eastern Time may post the Timestamp as 15:15:20, but Central Time will list 14:15:20, Mountain Time as 13:15:20, and Pacific Time as 12:15:20.

- **Jason Bourne:** (#165) Fictional secret agent / hero character in books and movies. "Deep Dream company," a fictional social media analog for Twitter or Facebook is involved with the CIA in mining personal data of 1.5 million subscribers through a sub-rosa program. The movie makes use a targeted assassination program called "Iron Hand" to go after the hero, which is perhaps being called "Iron Eagle" in real life.

Another use of "keystone" immediately asks which Nation is dominate? And yet another suggests returning to SA. . . which is Saudi Arabia. Another refers to the capstone of the Eye of Providence, bloodlines, and the Triangle. None of these imply that the Keystone is the UN. Most likely keystone is Satan.

Two large owl idols adorn the "temple" on Epstein's pedophile island. An owl is the motif of the streets and parks surrounding the US Capitol building, and an Owl is hidden in the engraving of the US dollar bill. Owl represents dual symbolism of wisdom and darkness, the latter meaning evil and death. In Greek (Roman) mythology, the owl had the ability to light up Athena's (Minerva's) blind side, enabling her to speak the whole truth, as opposed to only a half truth. In Welsh and Viking mythology, the Owl symbolizes death and renewal, wisdom, moon magick, and initiations. Their Goddess Arianrhod shapeshifts into a large Owl, and through the great Owl-eyes, sees even into the darkness of the human subconscious and soul.

The Q/ lead in to each of them may indicate that Q served under each of these presidents in some capacity. I.e. Q/POTUS-1 = Q under POTUS-1, etc. Your guess is as good as mine as to why the [10] kill box is placed after the Barack Obama indicator. . . But my guess (refer to definition for 4,10,20 above) is that Q is hinting that POTUS-4 [10] represents the hand inside the puppet president, with "10" as the tenth letter in the alphabet

which might mean the president's HANDler was (Valerie) Jarrett, the real power behind the hand puppet Obama.

 - 2: A long-term cyber espionage attack that Windows PC malware and also attacked PC Servers (also used JAVA) in specifically intelligence agencies around the world, dubbed Red October by Kaspersky Labs since they first started investigating it in the month of October 2012, anti-malware that eliminated it was developed then but it reappeared in 2015. It apparently vacuumed up hundreds of terabytes of data in the time it has been operational, which could be as early as May 2007 to date. It could extract data from mobile devices connected to the PCs that were infected with Red October, including iPhones. Possibly created by Chinese hackers. . . or our own CIA. . . anti-malware labs have been seeking the source for years, hence "The Hunt for Red October" which was dropped by Q to be just Red October in later drops, implying its been found.
 - 3: But the one I like most now is this: Sebastian Gorka, Deputy Assistant to President Trump, on the October 24th Sean Hannity Show said of the Russian Collusion hoax and the fake Steele Dossier: "It's the last scene from that great Tom Clancy movie, "The hunt for red October." When the bad submarine commander launch a torpedo it comes back and sinks his own vessel. That is what the Russian collusion story has done for the DNC and for Hillary." The time when Q dropped "the Hunt for. . ." And just started using "Red October" coincides exactly with the announcement of the House Intelligence Committee Memo was going to be released.

I recently, as in yesterday, grabbed a pair of OIG reports on "President's surveillance Program." some 50 Mb in size, 750 pages more or less. Reaches back to 9/11 and what was referred to as Terrorist Surveillance Program (TSP) for public presentation. Google search for oig psp will give plenty of links.

The report admits wholesale surveillance of US persons and locations without a warrant.

The way I figure it, the mind set is that until snooping results in arrest and detention, no civil liberty has been violated. IOW, "right to privacy" is not a civil liberty.

Does you, or anyone remember if it was this past week or the one before that Q posted “suicide weekend?” I am curious the identity of the man who killed himself outside the white house yesterday. Not much floating around about it that I can see.
