I did not make this list, but I do find it useful in deciphering 'Q's posts

=====

=====

A Comprehensive Q Lexicon of Acronyms of Cited Organizations and Persons

Note, names are alphabetized as they appear in the Q drops, which is usually first name, last name, for ease of finding them in the list and to keep them together as much as possible with their initials when Q has mixed names with initials.

Now includes Q Drop number of first citation use.

NOTE: It has been determined that Timestamps on Q Drops are not absolute. The hour changes according to the viewer's time zone. I.e. Eastern Time may post the Timestamp as 15:15:20, but Central Time will list 14:15:20, Mountain Time as 13:15:20, and Pacific Time as 12:15:20.

Q says spelling and sentence structure are deliberate. That means that almost all strange words in upper case are likely acronyms. For that reason it is likely "BOOM" without an exclamation point may be an acronym, not an explosion. "CLAS" is not a contraction of "classified" but also an acronym, etc.

- [1]:** (#952#524) Hussein— Barack Hussein Obama (per #524) refers to his cash hoard of \$29,000,000 in Singapore, which may have been seized. Q added the kill box number [1] to the #524 listing.
- [2]:** (#952#524) We do not say his name — Sen. John McCain (per #524) refers to his cash hoard of \$19,000,000 in Singapore, which may have been seized. Q added the kill box number [2] to the #524 listing.
- [3]:** (#952#524) HRC/BC— Hillary Rodham Clinton and Bill Clinton (per #524) refers to their cash hoard of \$15,000,000 in Banco de MEXICO, which may have been seized. Q added the kill box number [3] to the #524

listing.

[4]: (#952#524) NP— Rep. Nancy Pelosi (per #524) refers to her cash hoard of \$8,000,000 in Deutsche Bank USA, which may have been seized. Q added the kill box number [4] to the #524 listing.

[2]: (#952) We do not say his name — Sen. John McCain (per #524) refers to his cash hoard of \$19,000,000 in Singapore, which may have been seized.

[3]: (#952) HRC/BC— Hillary Rodham Clinton and Bill Clinton (per #524) refers to their cash hoard of \$15,000,000 in Banco de MEXICO, which may have been seized.

[4]: (#952) NP— Rep. Nancy Pelosi (per #524) refers to her cash hoard of \$8,000,000 in Deutsche Bank USA, which may have been seized.

\$4.9 billion in government subsidies (#207) The amount Elon Musk's three companies were given in government subsidies: Tesla, SpaceX & SolarCity, Elon Musk's growing empire is fueled by \$4.9 billion in government subsidies.

[13]: (#1008) 13 is the thirteenth letter of the alphabet, or "M", which makes MS_[13] = MSM, a construct of the mainstream media

[30] (#1281) In newspaper parlance "30" is used when a reported finishes writing an article to indicate "The End." So this could be interpreted to indicated that all things would be "Done at the end," especially with 30 being in a kill box.

@jack, JD: (#1379) Twitter CEO Jack Dorsey. Mentioned in a conversation with Democrat House Minority Leader Nancy Pelosi in Q drop #1379. (See Jack, JD, NP, Twitter).

#2 in FBI: (#247) Assistant Director Andrew McCabe, fired as of March 16, 2018, two days before he qualified for his Federal pension after 21 years of service for "lack of candor." — wife important as Q says "Wife connection?" and "Follow the wives." Wife is Jill McCabe, who received \$700,000 from Hillary Clinton friend (using HRC money) Virginia Governor Terry McCauliffe (D), to run for a State Senate seat as a D.

\$4.9 billion in government subsidies (#207) The amount Elon Musk's three companies were given in government subsidies: Tesla, SpaceX & SolarCity, Elon Musk's growing empire is fueled by \$4.9 billion in government subsidies.

[]: (#677) Kill Box, Q's answer to an anon's query about meaning to Drop #676, but not always, sometimes used to indicate letters to connect with other letters within a drop, i.e. [C], , [A] (#144) or [p], [r], [a]. [y] (#128), when such letters are buried in other words.

—23: (#1319) This cryptic post's meaning was finally semi-revealed after Q's new Trip Code was revealed in Drop #1422 where Q posted an Anon's capture of his latest Drop with the new Trip Code:

"NowC@mesTHEP@in---23". However, the significance of the "M dash, dash, 23" is still in question.

- One suggestion is it refers to the last to numbers of Executive Order 13823 Protecting America Through Lawful Detention of Terrorists which was signed by President Trump on January 13, 2018. (Thanks to FreeQs Bagster and ransomnote). **This turned out to be red herring as Q's new Trip Code is actually !CbboFOtcZs as displayed in subsequent drops. Q posted the name of the new campaign as a Trip Code password in the clear deliberately per drop #1430 "We exposed the password [#91 (#1430)] on purpose [23]."**
- Another is that it represents the number of days until the North Korea summit meeting on June 12th.
- A third possibility is that it is the number of indictments in the first round.
- Finally, numerous suggestions that something will be released on May-23.

(6+), +: (#124#133) George Soros (\$1 trillion + actual family wealth)

(6++), ++: (#124#133) Rothschild Family (\$2 trillion + actual family wealth)

(6+++), +++: (#124#133) House of Saud (\$4 trillion + actual family wealth)

+: (#124) George Soros (\$1 trillion actual family wealth)

++: (#124) Rothschild Family (\$2 trillion actual family wealth)

+++ (#124) House of Saud (\$4 trillion actual family wealth)

+++ + +++++: (#854) Two possibilities:

3,1,5 translated to C.A.E. which could mean Child Abduction Emergency or an Amber Alert or Child Abduction Emergency established by Federal Law in 1996 in the US. This comports to the subject of the Haiti abductions.

Some are interpreting the plusses to mean missing words and are filling in the blanks as "and a child" based on earlier reports from the New York Police Department finding a video on Anthony Weiner's laptop showing Hillary Clinton performing oral sex on a female child and then demanding the child do the same for her. This is supported by Q including "(raw vid 5:5)" immediately after the series of blank plusses.

187: (#121) Murder, homicide code in most jurisdictions

1/14/2014: (#835) President Obama delivers a speech at the Department of Justice in Washington, DC, to announce the outcomes of a review performed by John Podesta (really?) of our intelligence programs and phone surveillance. Three days before, on 1/14/2014, Obama had ordered a complete revamping of the NSA. Link to speech transcript.

4-10-20: (#495) Initial's of Donald John Trump in alphabetic number order.

15-10-5: (#455) In drop # 455 dated 12/23/2017, "Graphics should be in same time zone. Delta relevant.

Q explains these numbers as being related to #454: "timestamps are important" and citing : referencing back to drops #454, #453, #447, and "#2 in FBI"

23andMe: (#1167) Popular Social Media DNA testing Laboratory co-founded by Linda Avey (no longer associated), Paul Cusenza, and Anne Wojcicki, whose spouse is Sergey Brin, co-Founder of Google and current President of Alphabet, parent company of Google and YouTube. Sister is Susan Wojcicki, CEO of YouTube. 23andMe is important as it adds DNA data to Google, YouTube, big data conglomerate. (See Anne Wojcicki, Sergey Brin, Google, Alphabet, YouTube.) **[5]**Today

302s: (#1442) A FD-302 form is used by FBI agents to "report or summarize the interviews that they conduct" and contains information from the notes taken during the interview by the non-interviewing agent (there are always at least two agents present, one to interview and one to take notes). It consists of information taken from the subject, rather than details about the subject themselves. A forms list from an internal FBI Website lists the FD-302 as "Form for Reporting Information That May Become Testimony." The use of the FD-302 has been criticized as a form of institutionalized perjury due to FBI guidelines that actually prohibit audio and video recordings of interviews. Prominent defense lawyers and former FBI agents have stated that they believe that the method of interviewing by the FBI is designed to expose interviewees to potential perjury or false statement criminal charges when the interviewee is deposed in a grand jury and has to contradict the official record presented by the FBI. They have also stated that perjury by FBI agents allows the FBI to use the leverage of a potential criminal charge to turn an innocent witness into an informant. In some cases, it is disagreement with what was recorded as being said by FBI agents' on one Form FD-302 and a later Form FD-302 memorializing two separate encounters that results in felony charges of "Lying to the FBI" that have entangled people involved in the Russia/Trump probe. (See FBI, Flynn, Joe Pientka, MF, PS, Peter Strzok, Sally Yates).

470 Investigators: (#1553) Possibly the 470th Military Intelligence Brigade. The article being cited says ". . . Inspector General Michael Horowitz, who is working with Huber, has a staff of *470 investigators*, giving Huber access to enormous investigative firepower that far exceeds the staff of any special counsel." The phrase "470 investigators" may not mean *four hundred-seventy investigators* but rather mean *investigators from the 470th Military Intelligence Brigade*, if Sessions were treating the statements as literally true and making it part of some misdirection. As research by FreeQ Disestablishmentarian discovered, such a connection would certainly tie Q's information about Military Tribunals and the Q operation itself to Military Intelligence.

[666]: (~~#663~~#666) The dollar drop in the DOW industrial average on day after the State of The Union Speech. Q's renumbering of the drops and deletion of some has caused this Drop, with this comment to be renumbered from #663 to Drop #666. Coincidence? Maybe.

"She died Wednesday in Haverford, Pennsylvania, at age 93, according to the McConaghy Funeral Home. Her age, reported elsewhere as 88, was confirmed by her survivors and was included in the death certificate, a McConaghy spokesman said." What is odd is the discrepancies in her reported age and how young she looks in the accompanying photo taken in 2010, which includes Agnes' granddaughter Maggie. Q hints in Drop #1212 "Hussein & Maggie" and in Drop #1213 posts a photo of BHO with a 10 year old "Maggie Nix." In Drop #1215, Q includes an Anon's find of Maggie's mom being feted on her birthday by none other than James Alefantis, owner of Rocket Ping-Pong Pizza, of Pizzagate infamy! See photos at Q's linked article from Drop #1211 and Hussein & Maggie photo from Drop #1213 and Maggie's mom, Sarah Nixon's Birthday groping with James Alefantis. (See Pizzagate, Sarah Nixon, Maggie Nix, James Alefantis, Pizzagate, and "Wendy")

AL: (#267) Sen. Al Franken (D), resigned under fire.

Alan: (#1132) Alan Dershowitz, liberal lawyer, author, and Harvard Law professor emeritus. He held the Felix Frankfurter professorship there from 1993 until his retirement in December 2013. He is a scholar of United States criminal and constitutional law, and is a leading defender of civil liberties. He has a strong sense of ethics, and has spoken out against the campaign against Trump, and may have joined the Trump defense team as of April 11, 2018 given the "Welcome aboard" in drop #1132.

Alek Minassian: (#1261) Driver of the White Ryder Rental van which was used to run down pedestrians in Toronto, Canada, killing 10 and injuring 15 others. Now being used by Main Stream Media as a target of opportunity in attacking 4chan/8chan where Q posts Q Drops on 8chan by claiming a community of misogynists who established a presence on 4chan less than six months ago—just after Q started posting—with an interest group called "The Incel Rebellion." "Incel" is a contraction of "involuntary Celibacy" because the so-called group of men, who apparently is made up of ugly men, blame women for not having access to sex. The "incels" were praising the actions of Minassian, according to the MSM, even referring to him as "Saint Minassian. All of this is based on Minassian's now deleted Facebook account had contained, but "anonymously confirmed to CBC by Facebook in a Tweet," a posting referencing "The Incel Rebellion." Q's link to the NBC innuendo article linking Minassian to 4chan/8chan. (See Incel, PsyOp)

DOWNER HAD DRINKS IN LONDON WITH GEORGE FOPADOPoulos WHO TOLD HIM HE HAD A CONTACT (MALTESE PROFESSOR Joseph Mifsud) who had connections to Russian President Vladimir Putin. Downer passed on this

braggadocio information to intelligence operatives, supposedly instigating the Russia/Trump investigation. (See Joseph Mifsud).

Alice: Two different definitions:

- **Q states in Drop Q (#74) "Q = Alice" !!!**
- **Alice is NOT Hillary Clinton (#83)**

Alice in Wonderland: (#47) Q's original signature, Q, now changed to "Alice & Wonderland" difference important!

Alice "&" Wonderland: (#74) Q's original signature, #74 "Alice = Q." Q changed his signature of "Alice in Wonderland" to "Alice & Wonderland" at the last rebuild of the entire drop database, (I just noticed it while in a Freemail discussion with Freeper slag) and also changed this drop to show that Q was indeed Alice, and to alter the original "in" to "&" and to let all Autists know that it has important meaning. My interpretation is this is a sign that, like Alice in Wonderland, Q is the ultimate outsider. . . and that Q is Trump! Think about Saudi Arabia in terms of the queen of heart's garden in Wonderland where the subjects are painting the roses red. All of that country is an artificial garden, a "bloody wonderland", built on blood money. Ultramodern buildings in fanciful shapes, marinas ditto, million dollar cars abandoned to buy more million dollar cars? It's ALL whimsically painting the roses red. . . Because they can. The same satire of haughty waste seen and shown by Lewis Carroll in the ultra rich British Empire. Remember the caucus race in AinW? Pointless political maneuvering with no one getting ANYTHING DONE! That's Congress to Trump. For Lewis Carroll it was Parliament. Alice in Wonderland. Alice Through The Looking Glass. . . Mirrors. .

CIA as Alice in Wonderland: MKUltra trigger keys using AinW, among other fantasy works, as starting point to program impressionable candidates for future unknowing operatives. Two Part Article on CIA as Alice in Wonderland.

A member of the Democratic Party, Renteria is the first Latina Chief of Staff in the history of the U.S. Senate. She was the Democratic nominee for the United States House of Representatives from California's 21st congressional district in 2014, but lost to incumbent Republican David Valadao. In February 2018 she announced her candidacy for Governor of California which she lost the open primary to Democrat Gavin Newsom and Republican John Cox. In Drop #1556, Q post a video clip supposedly showing Bill Clinton boarding Loretta Lynch's airplane to have their ill advised conversation about "grandchildren." Q points out a person following close behind hinting strongly this is Renteria, the "Bridge between HRC and LL." In response to a challenge from Q to identify Renteria's Gubernatorial campaign manager, FreeQs rose to the task and identified that person as Michael Trujillo with ties to Rob Reiner, HRC. Trujillo was named a "senior advisor to the "Ready for Hillary PAC" in an article in the Washington Post in 2012. (See Bridge, Bill Clinton, HRC, Michael Trujillo).

Amanda Terkel: (#1515) HuffingtonPost reporter Amanda Terkel reported by Wikileaks to have colluded with HRC campaign and the DNC in the 2016 election.

During that time, he reported and produced stories, often on his own, from conflicts in Bosnia, Cambodia, Haiti, Israel, Myanmar, Russia, Rwanda, Somalia, and South Africa. Channel One News was a school television network seen daily in more than 12,000 classrooms nationwide. Cooper graduated from Yale University in 1989 with a Bachelor of Arts degree in political science. (Credit FreeQ TEXOKIE). **During college, Cooper spent two summers as an intern at the Central Intelligence Agency. Although he has no formal journalistic education, he opted to pursue a career in journalism rather than stay with the agency after school, having been a self-proclaimed "news junkie since [he] was in utero." After his first correspondence work in the early 1990s, he took a break from reporting and lived in Vietnam for a year, during which time he studied the Vietnamese language at Vietnam National University, Hanoi**

Andrea Mitchell: (#1515) MSNBC reporter Andrea Mitchell reported by Wikileaks to have colluded with HRC campaign and the DNC in the 2016 election.

Due to its cost free nature, Android is now the dominant cellular phone and imbedded device OS in the world, found in smart devices such as the Internet of Things, point of sales devices, appliances, TVs, automobiles (although many manufacturers are using Apple's iOS based CarPlay), etc. Q used Samsung in a Kill box in Drop #777 to represent Android in comparison to Apple's iOS. Next mention was by an Anon in Drop #1104 to point out that Facebook is imbedded in Android to which Q says "Think 'Bridge'. and then lists GOOG, FB, TWITTER, and IG (instagram) but not Apple, in reference to the 'Central' algorithm Q has claimed is used for

Adolf consider her a "sheep" but kept in contact with her because of her contacts with other family members, referring to her as "Frau Hammitzsch". Angela ran a boarding house for Jewish students and defended them against anti-Semite attacks. Post war she defended Adolf and herself claiming both were ignorant of the holocaust.

Anne Gearan: (#1515) Washington Post reporter Anne Gearan reported by Wikileaks to have colluded with HRC campaign and the DNC in the 2016 election.

(NYSE:APA), an oil and exploration company that Rothschilds' Family Trust (++) divested their one-third ownership interest in in mid January. Apache runs natively on Android mobile devices but runs only on Apple iOS devices that have been jailbroken which could be why Q noted a dichotomy between Google's [new Pixel phone], [Samsung] and Apple's iPhones in drop #771 with the Android phones in kill boxes.

Apple: (#428, #1309, #1310) American based multinational tech company best known for its line of iPhone non-Android based cellular phones and the Macintosh non-Windows based computers. First mention of Apple in Q drop #428 refers to George Soros selling his shares in Facebook, Twitter, Apple, and Snap, just before he transfers much of his holdings into a non-profit. Next mention of Apple is when comparing Apple to [Samsung], note Samsung in a kill box. The final Q mention of Apple (drops #1309, #1310) are two images of Apple's Hong Kong Retail Store and Apple's new World Wide Headquarters campus in Cupertino, CA, which were preceded by two images of JetBlue cargo jets and the interior of some shipping container or

April Ryan: (#1515) AURN reporter April Ryan reported by Wikileaks to have colluded with HRC campaign and the DNC in the 2016 election.

APRIL SHOWERS, April Showers (#1007) Several possibilities:

- Lots of activity in April. This seems possible as there was a flurry of Q drops. Q reiterated this meme in Drop (#1162) and indeed Q had listed a laundry list of thing to occur in April on Monday, April 2, 2018 with the heading:
- - **April [A]**
 - **IG report.**— The first only partially redacted (Lisa Page's name blacked out, but job title remained, occasional locations of McCabe locations or meetings, and some investigators names redacted) was released on **April 13, 2018.**
 - **Sessions public attack.**— Posted in bold font. Repeated calls from conservatives for Sessions to in-recuse himself from the "Russia investigation" or resign as Attorney General, Trump criticizes too in Tweets about lack of action on DOJ and FBI corruption, Congressional oversight committees threaten Department political appointees with impeachment. **April 5 through 15, 2018.**
 - **RR problems.**— Posted in bold font. After slow-walking Congressional Committee subpoenaed documents and repeatedly missing deadlines, Deputy Attorney General Rod Rosenstein threatened with opening of impeachment by both committee chairmen. More information released about RR's entanglement with Special Counsel Robert Mueller, the FISA Warrant, etc., and further evidence he should have been the one to recuse himself. Calls from multiple sources for RR's firing. Rosenstein says he's "OK with that." **April 5 through 13, 2018.**
 - **Seals broken.**— Possible referral to unsealing of tens of thousands sealed Federal indictments apparently brought by numerous Federal Grand Juries around the country just since October. **Not yet happened.**
 - **[A]rrests.**— Arrests of those persons named in the tens of thousands of sealed indictments mentioned in "Seals broken." **Not yet happened.**
 - **Why was Huber made public?**— U.S. Attorney for Utah District John Huber was appointed by Attorney General Jeff Sessions to investigate more into Hillary Clinton's email Scandals, the Uranium One scandal, the FBI non-investigation of both, the DOJ's meddling, and the politicalization of those two agencies. **Revealed early per Q on March 29, 2018.**
Why now?— The DOJ's Inspector General's report is due very soon and the IG has no subpoena power for no-longer-employed retired/fired/resigned Federal employees, and more importantly, no prosecutorial power at all, but a Federal Prosecutor does have these powers. It was revealed by Sessions that Huber is assigned to work with the DOJ's IG, using his report as a base, for consideration of criminal charges.
 - **Everything has meaning.**— **Standard Q meme.**
 - **[A]wan.**— Possible arrestees. **Not yet happened.**

- **Tarmac.**— New revelations about Loretta Lynch being offered both Attorney General slot and then Ruth Bader Ginsburg's seat on the Supreme Court in exchange for making FBI investigation of Hillary email scandal go away. **April 15, 2018.**
- **Iran.**— Growing unrest and move to unseat the Ayatollahs reaching fever pitch in Iran this month. **Not yet happened.**
- **NK.**— Preparations for May meeting with Kim. **Not yet happened.**
- **U1.**— Uranium one in IG report. **Not yet happened.**
- **FBI.**— Release of ex-FBI Director James Comey's attack book on President Trump, plus intense media attention to push that narrative, combined with the release of the partially redacted DOJ IG report on the firing of FBI Deputy Director Andrew McCabe, the questionable legality of the NY FBI raid (at Special Counsel Mueller's instigation) on Trump's personal attorney's, Michael Cohen's office, home, and hotel room, seizing privileged client work-product, results in heavy turmoil around the FBI. **Cohen Raid - April 9, 2018.**
- **DOJ.**— Between Rosenstein, Sessions, the FBI, Mueller's acting as if he were the Attorney General in assigning cases to investigate and prosecute (i.e. Michael Cohen vis-a-vis Stormy Daniels and source of \$130,000) and which office, etc. the turmoil in the DOJ seems to be reaching epic proportions. **Cohen Raid - April 9, 2018.**
- **Mueller.**— Mueller's is overstepping his authority, acting as if he were the Attorney General in assigning cases to investigate and prosecute (i.e. Michael Cohen vis-a-vis Stormy Daniels and source of \$130,000) and to which office, etc., multiple calls are rising from legal and constitutional scholars for the firing of Special Counsel Mueller, and/or Rosenstein. If Rosenstein, the claim is that a new, stronger Deputy AG would be named who would rein in Mueller from his out of control investigations. **Cohen Raid - April 9, 2018.**
- **Election Integrity.**— Potential evidence revealed on election fraud. **Not yet happened.**
- **Immigration Bill.**— Potential introduction of Administration's ideal Immigration Bill. **Not yet happened.**
- **Border.**— Hypothetical scenario: Central/South American Caravan "Refugees" arrive at U.S. border demanding entry. President Trump refuses entry but California Governor Brown demands, in the name of humanitarian instincts and "for the children" they be allowed entry, MSM side with Brown. Soros funds massive demonstrations across the country. **Not yet happened.**

- Trump "showering" missiles on Iran.
- Reference to poison gas Showers of WWII and the poison gas attacks in Syria.
- Showers is another word for "rain" and "rain" is an Anagram from "Iran," which then means that "April Showers" is that April is when Trump will be concentrating on Iran. (Inspiration from Freepers stylin19A.)
- **SHOW 'ers, SHOW [H]ERS** Borrowing the [H] found bolded in a later Q Drop changes the meaning to imply that April will be when Hillary, [H] will be exposed, perhaps the hinted video that will finally expose her evil nature. (Multiple Freepers)
- **The showers that begin before the Storm hits:** "The Calm Before The Storm." —> "Showers"—> "The storm is beginning."

Academi provides security services to the United States federal government on a contractual basis. Since 2003, the group has provided services to the Central Intelligence Agency, including a 2010 contract for \$250 million. Bots: (#164, #532, #564) Two usages.

- Internet 'crawler' programs probing around the world wide web seeking out data on websites or looking for vulnerable computers or placing data on websites. Various information companies use these crawler bots to build large databases on a variety of topics. Google is the leader in this effort. Some others include Twitter, Facebook, Yelp, etc.
- The term bot is also disparagingly attached to human beings who have been so convinced, read "brainwashed", into believing something they are fanatical about those beliefs to the extent they spout back the programmed talking points and are unreachable to any approach of logic to change that viewpoint. Q mentions then as "Russia Bots" or "Soros bots" who believe what the Main Stream media feeds them. For example, non-Q-aware people may refer to Q researchers as "Q-bots".

It may be money, goods, rights in action, property, preferment, privilege, emolument, objects of value, advantage, or merely a promise to induce or influence the action, vote, or influence of a person in an official or public capacity. Many types of payments or favors can constitute bribes: tip, gift, sop, perk, skim, favor, discount, waived fee/ticket, free food, free ad, free trip, free tickets, sweetheart deal, kickback/payback, funding, inflated sale of an object or property, lucrative contract, donation, campaign contribution, fundraiser, sponsorship/backing, higher paying job, stock options, secret commission, promotion (rise of position/rank), or later lucrative, influential, or prominent employment. (See BC, CF, Hillary Clinton, HRC, and Kickback).

Bridge, The (#827, #834, #1104, #1092, #1515, 1516, #1550 and #1556) possibilities:

- The Bridge between HRC and LL: The Bridge between Hillary Rodham Clinton and Loretta Lynch was defined as being Amanda Renteria, who is likely an eye and ear witness to what was said between Loretta Lynch and Bill Clinton on Lynch's plane parked on the Airport tarmac in Phoenix, Arizona. (See Amanda Renteria, Bill Clinton, HRC, LL).
- With addition of drop #1092 and use of "Bridge" in relation to tracking of everyone and a "Central algorithm", Bridge may mean: a transparent bridge, which is a common type of bridge that observes incoming network traffic to identify the unique Media Access Control (MAC) addresses which all telecommunicating devices and computers are assigned. Normally used with Ethernet networks, these transparent bridges can also be used in WIFI, bluetooth, and cellular networks. These bridges operate in a way that is transparent to all the network's connected hosts. This bridge records MAC addresses in a table that is much like a routing table and evaluates that information whenever a packet is routed

toward its location. A transparent bridge may also combine several different bridges to better inspect

incoming traffic. There is no reason such a bridge could not be combined with GPS data, scraping information, data requests, messaging, etc.

- With Q's comment in drop #834 "The BRIDGE." followed by "187" and then "The BRIDGE-2." followed by "@Snowden.", we have a hint that the Bridges are people who leaked data from secret computer sources to Wikileaks and the first one was murdered (187). That Bridge likely could have been Seth Rich.
- BRIDGE - Intel's remote termination code hidden in its microprocessors "Sandy Bridge" 2010, then "Ivy Bridge". (Thanks to FreeQ Diogenesis)

- The Bridge: The Podesta Group (Tony and John Podesta's lobbying organization). David Brock is the founder of both Media Matters and American Bridge Super PAC. Both of these organizations are funded in a large way by George Soros. . . and worked with the Podesta Group to start both. David Brock was James Alefantis gay lover when he converted from a conservative writer/gadfly to rabidly progressive/gadfly. Q himself wrote "The Bridge: Pedestal Group" establishing this as the definition of the Bridge. (Credit LexiQon Editor TexOkie). (See Comet Ping-Pong Pizza, James Alefantis, John Podesta, Pizzagate, Tony Podesta, JS, Soros).

Brock Dorsey: (#1643) Supposed author of Qanon: The Path To Dictatorship, a strange theory on a strange website that seems to espouse fringe theories combining Nihilism, mild White-supremacism, elitism, nationalism, "rightism", and a host of other vague isms, under the title of "Amerika". Like most of the writers featured on Amerika, the name Brock Dorsey appears to be pseudonymous as Google and Internet searches for other articles or even their existence aside from that website is fruitless. (Credit FreeQs Jack Black, Little Jeremiah). Most likely "Brock Dorsey" is a pseudonym for David Brock, an erstwhile conservative writer during the 1980s who penned such exposés as *The Real Anita Hill*. The writing style seems to be a match. Brock remade himself into a rabid progressive mouthpiece writer when he was outed as a homosexual. Later founded the extreme leftist media watchdog group Media Matters for America also founded super PACs called American Bridge 21st Century designed to elect Hillary Clinton president. Brock was connected for a while as the homosexual partner of Alafantis of Pizzagate notoriety. (See Bridge, HRC, Media Matters).

The Bridge between HRC and LL: The Bridge between Hillary Rodham Clinton and Loretta Lynch was

defined as being Amanda Renteria, who is likely an eye and ear witness to what was said between Loretta

Lynch and Bill Clinton on Lynch's plane parked on the Airport tarmac in Phoenix, Arizona. (See Amanda Renteria, Bill Clinton, HRC, LL).

CLAS consultants held a security clearance. CLAS consultants developed risk assessments, and risk management and accreditation document sets (RMADS). CLAS was supposedly closed in January 2016. CLOCK, Wind the Clock: (#370, #477) Q tells us "Timestamp" and to "Wind the Clock" in Drop #477 and "The CLOCK and the GRAPHIC are ESSENTIAL." In Drop # 370 Q said "Clock started – 10 days." The Timestamps we've been told are key to the graphic. If we *wind* every date from the starting of the clock on December 18th—the day of Q drop #370—minus ten days starting date would be 12/7/17. Every minute is one day on Q's clock graphic. Thus the first of sixty minutes of an hour on the Q Clock would represent 24 hour day of 12/07/17, then next minute would represent the twenty four hours of 12/08/17. . . And so on, continuing around the clock for each calendar day, winding around the face of the clock each time one completed 60 days. . . Spiraling out as we go around the clock. We plot Days on which Q posts drops drops, and days of major public events on this clock calendar.

The Q Clock Graphic

When plotted this way, patterns of Drops and event relationships emerge. For example, we can see that Q went mute for ten days beginning on 12/25/17 through 1/3/18, exactly six months before beginning another extended silent period starting on 05/23/18. There may be other insights that can be learned from this chart. For a complete overview, visit neonrevolt.com: "Wind the Clock." #QClocks Explained!

clients. The degrees of Freemasonry retain the three grades of medieval craft guilds, those of Apprentice, Journeyman or fellow (now called Fellowcraft), and Master Mason. These are the degrees offered by Craft (or

Blue Lodge) Freemasonry. Members of these organisations are known as Freemasons or Masons. There are additional degrees, which vary with locality and jurisdiction, and are usually administered by different bodies than the craft degrees. The basic, local organisational unit of Freemasonry is the Lodge. The Lodges are usually supervised and governed at the regional level (usually coterminous with either a state, province, or national border) by a Grand Lodge or Grand Orient. There is no international, worldwide Grand Lodge that supervises all of Freemasonry; each Grand Lodge is independent, and they do not necessarily recognise each other as being legitimate. Modern Freemasonry broadly consists of two main recognition groups. Regular Freemasonry insists that a volume of scripture is open in a working lodge, that every member profess belief in a Supreme Being, that no women are admitted, and that the discussion of religion and politics is banned. Continental Freemasonry is now the general term for the "liberal" jurisdictions which have removed some, or all, of these restrictions. Some scholars attribute the formation of the Masons to the destruction of the Knights Templar and the Masons being established to continue their legacy. Gun image imbedded in Q Drop: (#1440) After a self imposed sabbatical of no drops for twelve days, Q returned to post a carefully formatted Drop, #1440, which by use of the time stamp confirmed the Clock map, but also conveyed a graphical image message. The minutes of the time stamp points to the Clock Map's charted date of 06/03/2018, the exact date of the drop. The strangely all upper case letters of the drop, when inverted and viewed mirrored ("up is down, left is right" — Drop #833) becomes the image of a pistol, a semi-automatic handgun, pointing at the left, with "DARK TO LIGHT" being the ammunition loaded in the chamber, ready to fire.

Inverted mirrored Drop #1440 creates the shape of a pistol aimed toward the left.

Hannity intruder: (#840) Sean Hannity's wife finds him trespassing at their \$10m Long Island home and the intruder claims he is writing a book about the Fox News host. Jan Gilbert, 72, was arrested on February 17 after showing up at the house. He told someone there he was writing a book about Hannity to gain entry. That person allowed him in and followed him into the seven-bedroom property. Hannity's wife Jill was inside — she told the man once he got into the house. Police arrested him a short while later in his car and he was charged with misdemeanor trespassing. Gilbert insists it was a misunderstanding and that there is an explanation for his presence there - he just would not say what it was. UK Daily Mail Article on incident.

HARM: (#838) Possibilities:

Acronym: Hazard Assessment and Response Management

Acronym: High Speed Anti-Radiation Missile. The AGM-88 can detect, attack and destroy a radar antenna or transmitter with minimal aircrew input. The proportional guidance system that homes in on enemy radar emissions has a fixed antenna and seeker head in the missile's nose. A smokeless, solid-propellant, booster-sustainer rocket motor propels the missile at speeds over Mach 2. HARM, a U.S. Navy-led program, was initially integrated onto the A-6E, A-7 and F/A-18 and later onto the EA-6B. RDT&E for use on the F-14 was begun, but not completed. The USAF introduced HARM on the F-4G Wild Weasel and later on specialized F-16s equipped with the HARM Targeting System (HTS). The HTS pod, used by the USAF only, allows F-16 to detect and automatically target radars with HARMs instead of relying on the missile sensor alone.

Gina Haspel: (#1381) Gina Cheri Haspel (née Walker; born October 1, 1956) is an American intelligence officer currently serving as the Acting Director of the Central Intelligence Agency (CIA) since April 26, 2018, while still holding the official title of Deputy Director. If confirmed by the Senate, she will be the first female CIA Director; she is the second female Deputy Director of CIA. Haspel joined the CIA in January 1985 as a reports officer.[1][14] She held several undercover overseas positions, for many of which she was station chief. (See CIA, Mike Pompeo).

Hillary Clinton: (#1) Ex-Secretary of State, First Lady, Presidential Candidate Hillary Rodham Clinton. Wife of President William Jefferson Clinton, (See HRC, Alice & Wonderland, Alice in Bloody Wonderland, Saudi Arabia, Hillary Clinton in Wonderland by Lewis Carroll)

Hillary in Wonderland, Hillary in Saudi Arabia (#82) Coincides with "Alice (Q) & Wonderland" and "Saudi Arabia - the Bloody Wonderland." (See Hillary in Wonderland. Alice & Wonderland, HRC)

Huma: (#68) Huma Abedin, HRC's Chief of Staff, wife of Anthony Weiner

HUMA: (#236) Harvard University Muslim Alumni, not to be confused with Huma Abedin.

The Hunt for Red October, Red October: (#158) With the movie/TV theme running through Q drops indicates areas towards which Anons and FreeQs should be directing their attentions, there are several possibilities have been presented:

- The Hunt for Red October" is what Dr. Sebastian Gorka, now ex-Deputy Assistant to President Trump, said on the October 24th Sean Hannity Show, said about the Russian Collusion hoax and the fake Steele Dossier: "It's the last scene from that great Tom Clancy movie, "The hunt for red October." When the bad submarine commander launches a torpedo it comes back and sinks his own vessel. That is what the Russian collusion story has done for the DNC and for Hillary." The time when Q dropped "the Hunt for. . ." and just started using "Red October" coincides exactly with when the announcement of the House Intelligence Committee Memo was released.
- An antiquated Steel plant in Stalingrad, Russia, built during WWII reported on in a CIA document Q posted a link to. (#851) link to Q's CIA report. (Now deprecated by Q)
- One of several missing submarines including being unable to account for all of Russia's old nuke subs. (Now deprecated by Q)
- A long-term cyber espionage attack that Windows PC malware and also attacked PC Servers (also used JAVA) in specifically intelligence agencies around the world, dubbed Red October by Kaspersky Labs since they first started investigating it in the month of October 2012, anti-malware that eliminated it was developed then but it reappeared in 2015. It apparently vacuumed up hundreds of terabytes of data in the time it has been operational, which could be as early as May 2007 to date. It could extract data from mobile devices connected to the PCs that were infected with Red October, including iPhones. Possibly created by Chinese hackers. . . or our own CIA. . . anti-malware labs have been seeking the source for years, hence "The Hunt for Red October" which was dropped by Q to be just Red October in later drops, implying its been found.

Huffington Post: (#1515) Is an online news website founded by extreme Liberal Arianna Huffington, which, according to Wikileaks, was one of thirty-three news organizations which colluded with HRC campaign and the DNC in the 2016 elections. Ikhwan: (#1237) The Ikhwan, also Akhwan, was the first Saudi army made up of traditionally nomadic tribesmen which formed a significant military force of the ruler Ibn Saud and played an important role in establishing him as ruler of most of the Arabian Peninsula in the Kingdom of Saudi Arabia. The Ikhwan later became the Saudi Arabian National Guard. The Ikhwan first appeared around 1902. Possibly now the core of the Muslim Brotherhood which is now self identifying itself as a new grand army of invasion of Western Civilization committed to Jihad. Q's link to Clarion Project explanation. (See Huma, HUMA)

Imaged JetBlue Airbus A321 Airliner in flight: (#1592) The imaged aircraft's Tail No. N944JT is the same as the Airbus aircraft used in the JetBlue flight 1623 that was surrounded by JFK airport police and Homeland Security officers after the plane's flight deck did not respond to radio communications while taxiing for departure at approximately 8:00 PM on June 29, 2018, somehow the crew requested a return to gate. This occurred about two hours before Q's posting. Q hints at a false flag being averted. (See A321, FF, SFO).

JetBlue A321 In Flight

Incel, The incel Rebellion: (#1261) New 4chan/8chan interest group created since the appearance of Q's Great Awakening Q drops on 4chan and 8chan, now being used as a convenient, easy to hate surrogate to attack and attempt to shut down 4chan/8chan to shut down Q's ability to reach the public. Possibly a Deep State/CIA disinformation PsyOp. Q's link to the NBC innuendo article linking Minassian to 4chan/8chan (See Alek Minassian, CIA, PsyOp).

IN-Q-TEL (#222) mentioned only in an Anon's question to Q, which was referenced by Q in a cryptic authentic Q posting that was empty of all text, possibly indicating that the question did have merit, In-Q-Tel

(See Brennan, CIA, FBI, Halper, Page, Papadopoulos, Strzok).

Intelligence A, Intelligence A's: (#972) Intelligence Agency, Intelligence Agencies.

Internet Bill of Rights: (#605) Concept that Internet and Social Media on the Internet should not censor postings, be throttled, or censored, discriminated, or degrade network performance based on content. Q Linked to AT&T's version in Drop #841.

IRON EAGLE: (#128) 1886 movie starring Lou Gossett Jr. about a retired Air Force Colonel and an 18 year old, played by Jason Gedrick, whose father has been shot down in the fictitious Middle Eastern nation of Bilya and sentenced to death for the crime of being American. The US is politically neutered into doing nothing so the two independently "borrow" two F-16 fighter jets in California, and somehow maneuver things to get the jets to the Middle East to fly a rescue mission for the young man's father. Movie/TV theme running through Q drops indicates areas toward which Anons and FreeQs should be directing their attentions. Perhaps in this case an analogy of the people doing what governments cannot do. However, the point may be just a marker for The Middle East. (See Alice in Wonderland, Jason Bourne, Godfather III, The Hunt for Red October, Movie/TV Theme, Snow White, Speed, and Wizards & Warlocks).

Iron Hand: (N.F except in supplemental material found attached to Q Drop #799) Supposedly fictional plot device in next Jason Bourne film in which CIA establishes covert relationship with a social networking company "Deep Dream" (read Twitter or Facebook) which has 1.5 billion subscribers to access members' personal data through encrypted firewall. Possible hint from Q Iron Hand parallels reality as the CIA's targeted assassination program. May have analog in the real world of "Iron Eagle"

Sullivan was also a senior advisor to the U.S. government for the Iran nuclear negotiations and a visiting professor at Yale Law School. Prior to teaching at Yale, Sullivan worked in the Obama Administration as Deputy Assistant to the President and National Security Advisor to U.S. Vice President Joe Biden. He also served as the Director of Policy Planning at the U.S. Department of State, and as Deputy Chief of Staff to U.S. Secretary of State Hillary Clinton. Sullivan is one of the ten current and former U.S. officials House Intelligence Committee Chairman whom Devin Nunes (R-CA) has referred to the House Judiciary and Oversight & Government Reform Committees' joint task force, as it investigates potential DOJ and FBI wrongdoing related to the Trump-Russia probe. (See BHO, Christopher Steele, Colin Kahl, Elizabeth Dibble, Jake Sullivan, Joe Hockey, John Kerry, Lewis Lukens, Sidney Blumenthal, Victoria Nuland).

Ramos allegedly had a long standing dispute with the paper in the past, even suing them in court for criminal defamation in 2012, a case that a judge later tossed due to the

past, even suing them in court for criminal defamation in 2012, a case that a judge later tossed due to the fact the data published was factual and readily available to the public. He allegedly opened fire with a

shotgun at the publication's Annapolis, MD headquarters, reportedly targeting victims according to news outlets. Q later links to an archive of Ramos' rambling Verizon page supposedly justifying his lawsuit and Q suggests investigators look at the final graphic used by Ramos, which is apparently his family crest, or coat of arms.

Most likely this is a custom designed vanity fake that anyone could purchase from ads in the backs of magazines in the 50s through 70s.

Jason Bourne: (#165) Fictional secret agent / hero character in books and movies. In this instance Q is referring to the 2016 movie "Jason Bourne" in which a plot is presented, not the character. "Deep Dream company," a fictional social media analog for Twitter or Facebook is involved with the CIA in mining personal data of 1.5 million subscribers through a sub-rosa program. The movie makes use a targeted assassination program called "Iron Hand" to go after the hero, which is perhaps being called "Iron Eagle" in real life.

JFK: (#92) John Fitzgerald Kennedy, Assassinated President of the US

JFK JR: (#1082) John Fitzgerald Kennedy, Junior. Son of the Assassinated president JFK, SR., american lawyer, journalist, magazine publisher, and possible N.Y. senate candidate. JFK JR was killed on July 16, 1999, along with his wife, Carolyn, and Sister-in-Law Lauren Bessette, when his small plane, a Piper Saratoga II, crashed into the Atlantic Ocean near Martha's Vineyard. The NTSB declared the night accident was caused by "pilot error," and that disorientation most likely caused the inexperienced Kennedy to literally fly into the ocean, where all three on board were killed instantly by the impact. Author Roger Stone claims In a series of tweets, "The murder of JFK Jr will be the subject of my next book. JFK Jr was planning on running for NY senate seat @hillaryclinton wanted. Poor bastard" Source: Daily Mail Article, by John Huber. Twenty years ago JFK JR. predicted Donald Trump would be elected president and would be one of our greatest presidents in history.

Joe Hagin: (INFO) Deputy Chief of Staff for Operations Joe Hagin leaves the administration is resigning under pressure to quit for insubordination. Hagin will leave by the end of June 2018. Questionable relationships with persons associated with now exposed sex-trafficking sex-cult NXIVM through Hagin's co-founded business Command Consulting, marketed as "a global security and intelligence consulting firm that provides advisory services to governments, corporations, and high net worth individuals", which had among its client a Libyan politician and tycoon Basit Igtet and his wife Sarah Bronfman who were also involved with NXIVM. A collection of at least eight sources who spoke have suggested that Hagin may have turned a blind eye to his clients' involvement with the group because of the massive payout he would receive through a Libyan treasure hunt for a supposed \$200 Billion hidden somewhere by Muammar Gaddafi which his company was hired to find for a large 'finder's fee'. It is unclear when Hagin's firm stopped working with Igtet, but documents confirm that the relationship lasted until at least 2013. Hagin gave up his stake in Command Consulting when he joined the Trump administration, but he has continued to earn nearly \$100,000 from the firm in the last year, according to financial disclosures. (See government termination list, NXIVM).

Pientka has stated, however, that he did not think that Flynn ever mislead, much less lied to his interviewers. The implication is that some superior officer in the FBI (McCabe?, Comey?) altered the 302 to make it seem that Flynn had lied. (See FBI, McCabe, Peter Strzok, PS).

CNN claims that in mid-summer 2016, Schmitz tried to get official attention to some "files" he had found that he thought were the missing 30,000 HRC emails, but was unsuccessful in getting any such attention, with the hint they were fake. Other CNN innuendo is that Schmitz was somehow connected to George Papadopoulos merely because he was sitting next to him at a Trump meeting. Appears to be an attempt by CNN to reboot the Trump/Russia collusion story. The rest is innuendo about innuendo from previous articles without any evidence ever developing from the lack of substance or truth being reported.

Mifsud said, 'I have dinner with Lavrov tonight. Lavrov is my friend. Lavrov this, Lavrov that,'" Website news organization BuzzFeed cited Mifsud's erstwhile girlfriend. "He even show me picture with Lavrov." Despite the claim, there is no evidence as of yet proving Mifsud and Lavrov ever met, or that the former professor has any ties to the Russian government. Two large owl idols adorn the “temple” on Epstein’s pedophile island. An owl is the motif of the streets and parks surrounding the US Capitol building, and an Owl is hidden in the engraving of the US dollar bill. Owl represents dual symbolism of wisdom and darkness, the latter meaning evil and death. In Greek (Roman) mythology, the owl had the ability to light up Athena’s (Minerva’s) blind side, enabling her to speak the whole truth, as opposed to only a half truth. In Welsh and Viking mythology, the Owl symbolizes death and renewal, wisdom, moon magick, and initiations. Their Goddess Arianrhod shapeshifts into a large Owl, and through the great Owl-eyes, sees even into the darkness of the human subconscious and soul.

Pickle, The Pickle Factory: (#1359) Now nailed down to single correct meaning by Q, so all other suggested possible definitions of "Pickle" are being dropped from the Q LexiQon as Red Herring rabbit holes. Q says "Think**Pickle Factory:**" in Q drop #1394, Q confirmed that the reference "Pickle" was intended to indicate the fact that the CIA has been nicknamed the "Pickle Factory" since at least 1963, when that name was cited in print

Pickle: (#1359) Several possible meaning:

- The secondary Dictionary definition is: ". . . a difficult or messy situation with no obvious solution."
- In Baseball, a pickle most likely derives from the second dictionary definition of "pickle" in that it refers to a runner stuck between bases while two opposing team players are tossing the ball back and forth so that he can never safely reach a base. I.e. he's in a pickle.
- Military command of "PICKLE!" is used mostly by fighter and bomber aircrew when all the firing and aiming parameters are met for releasing a bomb or firing a rocket/missile and the weapons release point is optimal, the verbal command "PICKLE!" is issued, meaning release/fire ordnance RIGHT NOW! (Thanks to FreeQ Gritty).
- **The 'Pickle' button** is what you push to release a bomb. Likely related to the previous definition This one comes from WWII—as in being accurate enough to drop a bomb into a pickle barrel—"pickle" in Q's reference could be dropping a bomb. .
- The CIA has been nicknamed the "Pickle Factory" since at least 1963, when that name was cited in print. The CIA's intelligence briefings sent to the president were called "pickles," derived from the acronym "PICL", which stood for "President's Intelligence Check List," (pronounced "pickle"), which was developed for President Kennedy in June 1961. Since these were prepared largely by the CIA, the joking appellation "The Pickle Factory" was soon coined for their source. In 1965, the PICL was replaced by the President's Daily Briefing (PDB), a much duller acronym, but the "Pickle Factory" stuck for a few years in the press. (See CIA)

- **German-American Christmas Pickle tradition** is to hide a glass pickle ornament somewhere on the Christmas tree. First child to find the pickle on the tree Christmas morning gets either an extra Santa present or good luck all year, depending on family tradition. Said to originate from a Bavarian-born Civil War Private John C. Lower had enlisted in the 103rd Pennsylvania Infantry, but was captured in April 1864 and taken to the infamous Andersonville prison camp. As the story is told, on Christmas Eve he begged a guard for food while starving. The guard provided a pickle, which Lower later credited for saving his life. After returning to his family, he began a tradition of hiding a pickle on their Christmas tree each year. (Thank to my German-American girlfriend Kathy).

Q/POTUS-1, Q/POTUS-2, Q/POTUS-3, Q/POTUS-4 [10], Q/POTUS-5 : (#365) POTUS-1 = George H.W. Bush, -2 = Bill Clinton, -3 George W. Bush, -4 [10] = Barack H. Obama, -5 = Donald J. Trump. The Q/ lead in to each of them may indicate that Q served under each of these presidents in some capacity. I.e. Q/POTUS-1 = Q under POTUS-1, etc. Your guess is as good as mine as to why the [10] kill box is placed after the Barack Obama indicator. . . But my guess (refer to definition for 4,10,20 above) is that Q is hinting that POTUS-4 [10] represents the hand inside the puppet president, with "10" as the tenth letter in the alphabet which might mean the president's HANDler was (Valerie) Jarrett, the real power behind the hand puppet Obama.

A long-term cyber espionage attack that Windows PC malware and also attacked PC Servers (also used JAVA) in specifically intelligence agencies around the world, dubbed Red October by Kaspersky Labs since they first started investigating it in the month of October 2012, anti-malware that eliminated it was developed then but it reappeared in 2015. It apparently vacuumed up hundreds of terabytes of data in the time it has been operational, which could be as early as May 2007 to date. It could extract data from mobile devices connected to the PCs that were infected with Red October, including iPhones. Possibly created by Chinese hackers. . . or our own CIA. . . anti-malware labs have been seeking the source for years, hence "The Hunt for Red October" which was dropped by Q to be just Red October in later drops, implying its been found. But the one I like most now is this: Sebastian Gorka, Deputy Assistant to President Trump, on the October 24th Sean Hannity Show said of the Russian Collusion hoax and the fake Steele Dossier: "It's the last scene from that great Tom Clancy movie, "The hunt for red October." When the bad submarine commander launch a torpedo it comes back and sinks his own vessel. That is what the Russian collusion story has done for the DNC and for Hillary." The time when Q dropped "the Hunt for. . ." And just started using "Red October" coincides exactly with the announcement of the House Intelligence Committee Memo was going to be released.

Reports are that as a final act before leaving office, President Obama converted some 8,000 of his political appointees into these civil service positions to immunize them from being replaced by new political appointees. Such employees are the heart of the Deep State. May be Keystone as they have a logo that is in the shape of a keystone. (See Keystone).

Sessions: (#8) Attorney General Jeff Sessions under president Trump

SETF: (#1088) Syrian Emergency Task Force, which is a United States-based organization advocating for the armed overthrow of the government of Syria. John McCain, Sen. Marco Rubio, and Sen. Lindsey Graham). SETF is indirectly funded by the U.S. State Department through contracting firms including Chemonics and Creative Associates International. SETF's executive-director, Mouaz Moustafa, is a former field organizer for the U.S. Democratic National Committee and previously served as executive-director of the Libyan Council of North America. Read about some interesting connections on Moustafa's "patriotism" in this 2013 Frontpage article. (see Mouaz Moustafa)

Detective Osbourne worked out of the 9th Precinct and collapsed around 7:30 am in front of a desk at work. She was transported to a local hospital where she later died. Detective Osbourne was a mother of two and the sister of an NYPD Sergeant and the daughter of a retired NYPD Sergeant. She was a 19-year veteran of the NYPD. SIG: (#1346)

Defined in Q drop #1346 as "Special Interest Group."

SIGLE: (#1358) Spotted as an assumed misspelling in Q drop #1358 "We fight every sigle day on behalf of you, the people who put us here." (emphasis added) it appears that Q's admonition that spelling counts is

you, the people who put us here, (emphasis added) it appears that Q's admonition that spelling counts is true. So far FreeQs have identified two possibilities:

- SIGLE could be the "System for Information on Grey Literature in Europe" which was established in 1980 to disseminate information to government agencies between the participating nations. Ostensibly SIGLE data is available to others as well. Although supposed Governmental funding of SIGLE ceased in 1985, a new network for the acquisition, identification and dissemination of grey literature was formed called "European Association for Grey Literature Exploitation" or "EAGLE," which became the producer of the SIGLE database. Input to the database ended in 2005 when the EAGLE General Assembly decided to liquidate the network. However, in 2007, together with the last EAGLE operating agent, FIZ Karlsruhe, integrated the SIGLE records into a new open access database called OpenSIGLE hosted by the French STI centre Institut de l'information scientifique et technique at the French National Center for Scientific Research (INIST-CNRS). Cataloguing rules and classification scheme were adopted from the International Nuclear Information System (INIS) database produced by the IAEA (International Atomic Energy Agency). (See Eagle).
- **CMS Hasche Sigle:** the first international Company to open in Iran after Obama lifted sanction following the non-signing of the non-nuclear pact. The company, headquartered in Berlin, is a partnership of lawyers and international tax advisers. In the firm are a total of around 1,200 employees at eight locations in Germany (Berlin, Düsseldorf, Frankfurt, Hamburg, Cologne, Leipzig, Munich, Stuttgart) and six offices abroad (Brussels, Hong Kong, Moscow, Beijing, Shanghai and Tehran). Work in Germany employs 560 professionals (FTE) for CMS Hasche Sigle, of which 200 are partners and 360 associates. . (See Iran)

SIS: (#144) two possibilities:

- Secret Intelligence Service, the UK's MI6.
- Special Intelligence Service, a defunct NAZI-specialist part of FBI that was rolled into the CIA.
- **Signal Intelligence Agency:** The Signal Intelligence Service (SIS) was the United States Army codebreaking division, headquartered at Arlington Hall (former campus of Arlington Hall Junior College for Women, founded 1927 to 1942, on Arlington Boulevard in Arlington, Virginia, across the Potomac River from Washington, D.C.). It was a part of the U.S. Army Signal Corps so secret that outside the office of the Chief Signal officer, it did not officially exist. SIS was an early predecessor to the modern National Security Agency (NSA) and later appropriated by the National Security Council who reappointed the resources into the modern NSA. (See NSA).
- **Schengen Information System** The Schengen agreement is a foundational document that is "the tie that binds" a lot of the other European Union agreements in matters of trade, taxation, migration, border controls, etc. The "Schengen Information System (SIS) is used by twenty-six European countries to find information about individuals and entities for the purposes of national security, border control and law enforcement. A second technical version of this system, SIS II, went live on 9 April 2013." Schengen Information System). Given the global nature of corruption and clean-up ("WW"), it's possible the Schengen-IS may be an important player in rounding up Euro corrupt players.

SK: (N.F.) South Korea

Sniffers: (#30) Internet bots designed to search the Internet for specific data on websites

Snopes: (#1533) Snopes is a Soros backed left wing "Fact Checking" organization which often twists and often even falsifies its fact checking to support progressive Liberal philosophy and denigrates anything conservative or right 018 Democratic wing. By being accurate on checkable objective facts, Snopes establishes a reputation of veracity in those areas, which makes its leftward slant on subjective "truth" more insidious as they present it in the same way as they do objective truth. Citing only Leftwing and/or progressive sources as authoritative on determining history or social questions is another way Snopes uses to establish the truth of their declarations. For example, Liberal main stream news sources are never described as ever being leaning left wing, but any citations from conservative news sources, no matter how main stream or popular, are always described as "right wing."

Snowden: (#120) Edward Snowden, ex-NSA contract worker who stole and released millions of classified NSA documents now in Russia after fleeing manhunt by CIA/FBI, trained by CIA

Snow White: (#80) Two possibilities:

- **The fantasy kingdom of North Korea** from the recurrent Movie Theme in Q. Q uses movies to indicate areas Anon's and FreeQs should be looking toward for the events on the world stage that will be occurring in the near future if properly understood. Snow White has been often listed with these movie/TV names. (See Alice in Wonderland, Jason Bourne, Godfather III, The Hunt for Red October, Iron Eagle, Movie/TV Theme, NK, Speed, and Wizards & Warlocks).
- **The CIA's Quantum Computer** to go with the 7 dwarfs. Apparently located in Henderson, Nevada, ZIP code 89074 (revealed in Drop #246) where two small basketball courts, and three small one story buildings have a combined parking lot for 450 cars.

Spade: (#1445) Katherine Noel Brosnahan (December 24, 1962 – June 5, 2018), known professionally as Kate Spade and Kate Valentine, was an American fashion designer and businesswoman. She was the founder and former co-owner of the designer brand Kate Spade New York. Although quite wealthy, and the mother of a thirteen year old daughter, Spade was the apparent victim of a suicide. She was found to have apparently hung herself from a doorknob using a red Kate Spade Silk Scarf. A cryptic note to her daughter was left reportedly saying "Ask your father." Spade was a known associate of the Clinton Foundation, was involved in the CF's Haiti Earthquake relief programs and reportedly received some funding (\$5 million) from the CF to build a textile factory in Northern Haiti just prior to selling her company (the Earthquake damage was in the Southern part of the island nation) which was never built. Spade was rumored to have been involved in the rescue of "Haitian orphans" being run by the Clinton Foundation as well, which had a taint of scandal when some children were found not to be orphans. Spade has also been pictured partying with James Alefantis of Pizzagate notoriety. She is just one of several celebrities who have chosen this means of suicide in recent weeks and months. Q says to track them. (See CF, Haiti, HRC, H-Relief, James Alefantis, Klaus Eberwein)

Spartans in Darkness: (#845) "Spartans in Darkness: American SIGINT and the Indochina War, 1945-1975" a report written by Robert J. Hanyok, 2002, Center for Cryptologic History, National Security Agency, 483 pages. Spartans in Darkness, free online access.

Speed: (#100) Movie starring Keanu Reeves and Sandra Bullock about a bus that cannot be allowed to go under 50 MPH due to a bomb connected to the speedometer. Movie/TV theme running through Q drops indicates areas which Anons and FreeQs should be directing their attentions toward. "Speed" may be pointing to the upcoming use of vans, busses, trucks in future terrorism attacks against pedestrians. (See Alex Alice in Wonderland, Jason Bourne, Godfather III, The Hunt for Red October, Iron Eagle, Movie/TV Theme, Snow White, Speed, and Wizards & Warlocks).

Spirit Cooking" (#100) So-called performance art involving blood (human and pig) and other bodily fluids, supposedly created by Marina Abramović, but really, she says, contingent on "when and where it is done determines whether it is art of something more serious." One of Abramović's ritual spells included in her book, "Spirit Cooking," calls for the mixing of "fresh breast milk with fresh sperm milk" to "drink on earthquake nights." Critics say that Spirit Cooking is a Satanic Ritual. Ritual participants seem to include most major members of Deep State Cabal including Podesta Brothers, Clintons, etc.

SR: (#834) Seth Rich, DNC staffer who likely was the leaker of DNC secret computer files to Wikileaks, murdered on July 10, 2016 in a supposedly botched robbery in which nothing was taken according to authorities, more likely assassinated for leaking. (Thanks to Freeper RoosterRedux for the reminder)

Gregory Clifford (born March 17, 1979), professionally known as Stormy Daniels, Stormy Waters, or simply Stormy, and named in court documents as Peggy Peterson, is an American pornographic actress, stripper, screenwriter, and director. Accepted a \$130,000 payment from Attorney Michael Cohen shortly before the 2016 presidential election to not say anything about a supposed sexual encounter she claims she had with the married Donald Trump some nine years previous. Now suing Cohen to be released from that contract while speaking publicly about said sexual encounter, thus violating the terms of the contract she is suing to be released. Purely a politically motivated lawsuit. Cohen's offices were raided by the FBI's NY offices seeking information on where he got the \$130,000 he paid Ms. Daniels among other fishing expeditions claims. Trump states the claimed tryst did not occur. Currently the hearing has been postponed 90 days until July 2018. (See Cohen, DOJ, FBI).

Suicides: (#541) Q says to track suicide deaths. There have always been suspicious suicides associated with the Clintons since their days in the Governor's mansion in Arkansas. It even has gained the name of

the Clinton's since their days in the Governor's mansion in Arkansas. It even has gained the name of Arkancide. Lately members of the elite have been killing themselves at what seems to be a higher than

normal rate. There seems to be linkages between these suicide victims and the Clinton Foundation, HRC, and in some way with sexual child abusers and possibly even perhaps pizzagate. Among those suspicious suicides, which may actually be homicides, are:

- **Chester Bennington**, age 41, musician and singer with Linkin Park: suicide on July 20, 2017, by asphyxia due to hanging by a belt from a doorknob in his home, two months after his friend Chris Cornell, age 52, committed suicide in a similar manner. - **Klaus Eberwein**, age 50, former director-general of Haiti's economic development agency: found shot in the head in a Miami hotel room. Reportedly was scheduled to testify on the Clinton Foundation's misuse of donations in Haiti in the efforts following the devastating earthquake. (See CF, Klaus Eberwein, Haiti).
- **Keith English**, age 50, Missouri State Politician, State Senator, electrician, Mixed Martial Arts fighter: died February 28, 2018 from a self-inflicted gunshot wound in a parking lot in Jefferson City, Missouri. English was the only Democrat to vote for to successfully override a Democrat Governor's veto of the first income tax reduction bill in almost a century. His was the single vote needed to reach the two-thirds super majority to override the veto. (Thanks to FreeQ Cats Pajamas).

(See James Dolan, Aaron Hillel Swartz)
- **Charles Williams**, age 52, former pro-wrestler known as "Rockin' Rebel": Murder-Suicide by handgun. Williams allegedly shot his wife, Stephanie Williams, age 50, at their Pennsylvania house and then subsequently turned the gun and shot himself. Tragically the couple's ten year-old twin sons were present in the house when the suicide occurred and one of them found the bodies in the morning.
- **Robin Williams**, age 63, comedian, actor: death on August 11, 2014, by asphyxia due to hanging from closet with belt, fully clothed.

Sum of All Fears: (#194)

- Fear of the destruction of an American city by nuclear weapon whether by ICBM or smuggled in through shipping or plane.
- Reference to novel and movie. Book written by Tom Clancy involves nuclear bomb intended to go off outside a football stadium in Colorado while pro game with VicePresident and one other cabinet member are in attendance. Bomb turns out to be a fizzle due to makers killing their bomb maker before he takes the final step of installing an exciter material to increase yield and make into Hydrogen weapon. Purpose was to trick US and Russia to go to war by making US think the bomb was a Russian Attack. Movie version moves attack to Baltimore, drops fizzle subplot. Bomb Uranium in both is from US source.
- **Continuing Clancy book and movie analogy** in Q drop #1306, Q strongly implies the Uranium being used to clandestinely continue their nuclear bomb research, likely in Northern Syria at a now destroyed facility, was deliberately sourced by Obama and HRC Ethan al al through the Uranium 1 scandal in which 20% of US uranium was sold to Russia. Some of it was transferred to NK, some to Iran, but source is ultimately Traceable to US. (See HRC, Mueller, Obama, U1, Uranium 1)

occupied the Constellation of Ophiuchus for a mere nineteen days, between leaving the house of Scorpio and entering the House of Sagittarius. The House of Ophiuchus, or Draco the Dragon, is the Sign of the Zodiac most revered by the Illuminati, the elite. Ophiuchus is the only sign of the Zodiac that is associated with a real person, the Egyptian Vizier Imhotep, who may be one and the same as the Hebrew Joseph.

U1 -> CA -> EU -> ASIA -> IRAN/NK: (#194) Uranium One scandal path: Canada --> European Union --> Asia --> Iran/North Korea. The US subsidiaries of Uranium One, Inc. were formerly Canadian owned. RSB logistics could move the uranium from Uranium One USA in KY to Cameco Corp in Ontario. Now technically, once the conversion plant (Cameco Corp) is done with it, the uranium must return to the US, however, it's already out of the country and here is the perfect way to move it abroad. Link to the export license and a memo Representative Visclosky with the details. <https://www.nrc.gov/docs/ML1516/ML15168A230.pdf>

Identity confirmed by DNA match (say what?) and body buried at sea in less than 24 hours. Interestingly, all mention of Usama's severe kidney disease and need for kidney dialysis has been scrubbed from the Internet. Original reports had claimed Usama had died of kidney failure as early as December of 2001.

Most documents were stolen and leaked by Edward Snowden. Each grouping is called a vault. Generally these people have been selected to sit in the first row at the Rallies and given a VIP pass. President Trump demonstrates complete awareness of Q with such acknowledgement. (See Mr. VIP).

Viv[a] or Viv[e]: (#1558) In Q Drop #1558 Q raises the question of why the French misspelling of "Viva" in the French language phrase of "Vive la Résistance," which translates as "Long Live the Resistance," using the

the French language phrase of *vive la resistance*, which translates as *Long Live the Resistance*, using the Spanish spelling instead of the French spelling of the word "Viva," but the French article "le". Q implies there

is meaning in the substitution rather than ignorance. The writer is likely a lawyer. Lawyers use the word "Viva" as short for *Vive Voce* which has several pertinent legal meanings: It may refer to 1) Word of mouth; (2) A voice vote in a deliberative assembly (3) An oral examination; (4) Spoken evidence in law; or (5) Related to #1, orally transmitting information. Could the phrase have then implied "Spread the resistance by word of mouth" by use of a word other lawyers would have understood?

VOX: (#1515) Internet based Vox currently runs eight editorial news brands: SB Nation, The Verge, Polygon, Curbed, Eater, Racked, Vox, and Recode. Vyacheslav Ivanov: (#723 addenda) Vyacheslav Anatolyevich Ivanov — Russian man who is somehow connected with the Steele Trump Dossier, who was killed on Russian airline accident on 2/10/2017 along with 70 other innocent victims. CFO of Roseatom, the state owned company which now owns 20% of US Uranium.

We don't say his name: (#521) Sen. John McCain (R)

Wall Street Journal: (#1515) despite having a usually conservative editorial page, the news department is typically left-wing and, according to Wikileaks, was one of thirty-three news organizations which colluded with HRC campaign and the DNC in the 2016 elections. Three reporters/editors were named as involved. (See Laura Meckler, Peter Nicholas, and Colleen McCain Nelson).

Washington Post: (#1515) Owned by Jeff Bezos of Amazon fame, The Washington Post is one and the most Liberal newspapers in the country and, according to Wikileaks, was one of thirty-three news organizations which colluded with HRC campaign and the DNC in the 2016 elections. At least two reporters/editors were named as involved. (See Anne Gearan and Greg Sargent).

"Wendy": (#1207) The pet name of a young girl, possibly starting before she was ten years old, who was abused by Barack Hussein Obama. One such girl who appears frequently in photos over several years with BHO has been identified as Maggie Nixon, whose mother is an associate of James Alefantis, owner of Rocket Ping-Pong Pizza of Washington DC of Pizzagate notoriety. Possibly "Wendy." Q says a newspaper clip photo of BHO with an unnamed girl obviously Maggie is "Over the target" in response to an Anon asking "Wendy?" about that clipping. "Over the target" newspaper clipping, Q's linked article from Drop #1211 showing Maggie with her Grandmother Agnes Nixon and Aunt Mary and Hussein & Maggie photo from Drop #1213 and Maggie's mom, Sarah Nixon's Birthday groping with James Alefantis. WH: (#20) White House

WH Suicide: (#840) "Washington, DC, police have identified a man who shot himself in the head in front of the White House at just before noon Saturday as 26-year-old Cameron Ross Burgess of Maylene, Alabama. "At approximately 11:46 am, Burgess approached the vicinity of the North White House fence line and removed a concealed handgun and fired several rounds, none of which appear at this time to have been directed towards the White House," the Metropolitan Police Department said in a statement Sunday. A law enforcement source told CNN the shooter shot his phone before shooting himself. No suicide note was found, but incoherent sentences were found in a book recovered on the scene, the source said. Full Article on Shooter ID.

When do you call a plumber?: (1279) When you have a leak

Whitelist: (#957) Opposite of Blacklist, which prevents access, Whitelist is a list of locations which one is allowed to access. In this case, countries, or locations which a traveler is allowed to go.

White Squall: (#1603) White Squall is a 1996 American disaster survival feature film, directed by Ridley Scott. It is a coming of age film in which a group of high school and college age teen-agers sign up for several months of training aboard a sail ship, a brigantine, and travel around half the globe when suddenly they are challenged by a severe storm. The film stars Jeff Bridges in the role of the captain, called "Skipper", his wife played by Caroline Goodall, and a supporting cast portraying a group of nearly a dozen student sailors. (See WWG1WWA, Where we go one, we go all).

Whitney Snyder: (#1515) HuffingtonPost reporter Whitney Snyder reported by Wikileaks to have colluded with HRC campaign and the DNC in the 2016 election.

Who is standing next to Pence & POTUS? Message? (#1123)

Who just joined the Board of Netflix?: (#1623) Ex-Obama National Security Advisor from 2013 to 2017 Susan Rice.

Who performs in a circus?: (#875)

Clowns. CIA.

British Intelligence.

Wikileaks: (#120) Wikileaks.org, International watchdog website which frequently drops secret documents leaked by whistle blowers from various government and corporate sources, operated by Julian Assange.

Wizards & Warlocks: (#80) Two possibilities:

- **Episode of "The Greatest American Hero**, starring William Katt, in which an Arabic Prince disappears. The investigators find he has been playing a game called "Wizards & Warlocks," and the only way to find him is to locate the author of the game. Movie/TV theme running through Q drops indicates areas toward which Anons and FreeQs should be directing their attention. This may have pointed Anons and FreeQs toward the sudden disappearance, actually the arrest, of Prince Alwaleed of Saudi Arabia. (See Alice in Wonderland, Jason Bourne, Godfather III, The Hunt for Red October, Iron Eagle, Movie/TV Theme, Snow White, Speed, and Wizards & Warlocks)
- **Internal name used by NSA analysts** for themselves.

WL: (#120) Wikileaks, see Wikileaks entry.

Wray: (#117) Director of the FBI Cristopher Wray

WW: (#17) World Wide

WWG1WGA: (#991) "Where we go one, we go all."

Where we go one, we go all" (#513) This is a catch phrase Q has been using throughout the drops. Q is probably using it as a reference to the coming "Storm." Two possible sources:

- It possibly comes from a book and a movie. The movie "White Squall" is based on the book "White Squall - The Last Voyage of Albatross" by Richard Langford and Chuck Gieg (one of the few student survivors) about the loss of a school Brigantine sailing ship in 1961. The full quotation includes the line which was on the bell of the ship "Where we go one, we go all" is **"If we don't have order, we have nothing. Where we go one, we go all."**(Thanks to Freeper yesthatjallen for the hint of what to research).

X10: (#1410) File name of image showing palletized packages of items with yellow shipping tape along with another image of thousands of workers at Foxconn. The Helio X10 is an alternative processor (to Snapdragon processors) used on low to midrange Android cellular phones, including some made by Sony, Oppo, Xiaomi, Meizu, HTC, and ZTE, among others. It would be great if the DOJ did seize the secret bank accounts of HRC/BC, McCain, Pelosi, and how many other crooked maggots in the swamp.

Y: (#184) Goat Head symbolism images/icons seen where these people congregate... also may appear as a goatish face with deer like antlers or any satanic figure with horns. But hey, They will only let us peasants know, if it serves Their Agenda.

Will They release the child porn videos found on Weiners laptop, showing HRC sexually assaulting a minor?...

YANOO! NEWS: (#1515) YANOO! news department, according to WIKILEAKS, was one of thirty-three news organizations which colluded with HRC campaign and the DNC in the 2016 elections. Only one

reported editors supposed to stay involved. (See Matt Bai).

Are people making money off this whole Q thing?...any book tours yet?....(sarcastic me)....

I know you know this isn't just, "Q stuff."

The fact that there are relatively few awakening to the profound implications and historic events of this climate is a clear sign of it's genuineness and impact on our worlds.

Look how many so called Americans and so called Patriots are threatened by a major change to their paradigms. Threatened to the point of openly mocking(being noted) and shamefully even wishing for a failure of these heroic and powerful minds ironically risking their lives, and their close families lives, for the very "free speech" they tragically indulge in while championing against their last hope and Freedom and Justice.

If one isn't addicted to this "Q stuff" I say they either haven't studied enough or their hearts and minds are too corrupted with their own egos.

470 Investigators: (#1553) Possibly the 470th Military Intelligence Brigade. The article being cited says “. . . Inspector General Michael Horowitz, who is working with Huber, has a staff of *470 investigators*, giving Huber access to enormous investigative firepower that far exceeds the staff of any special counsel.” The phrase “470 investigators” may not mean *four hundred-seventy investigators* but rather mean *investigators from the 470th Military Intelligence Brigade*, if Sessions were treating the statements as literally true and making it part of some misdirection. As research by FreeQ Disestablishmentarian discovered, such a connection would certainly tie Q’s information about Military Tribunals and the Q operation itself to Military Intelligence.

Government Officials who have been fired (!), resigned (*), or who are not seeking re-election ():**

Congressional Staffers

- **James Wolff *** — Indicted and arrested former Senate Select Committee on Intelligence Director of Security who resigned from his position on December 15, 2017.

James Wolff (#info) indicted and arrested former Senate Select Committee on Intelligence Director of Security who resigned from his position on December 15, 2017, after having been discovered to have been leaking confidential, if not classified information of committee activities to at least four members of the media, specifically in reference about the committee’s investigation of the Carter Page (Male-1) Surveillance Warrant applications that resulted in those warrants issued by Foreign Intelligence Surveillance Court. A Federal Grand Jury issued a sealed indictment with 30 charges of Wolff for lying to the FBI in May 2018. The indictment was unsealed and Wolff was arrested on June 8, 2018. The reporters receiving these leaks, although not named in the indictment, have been circumstantially identified due to details contained in the indictments as: reporter-1, is likely Manu Raju of CNN; reporter-2, is definitely Ali Watkins of the New York Times; reporter-3, is likely Marianna Sotomayor of NBC; reporter-4, is likely Brian Ross of ABC.

Joel Getz: (#1680) Possibly the man pictured in the image posted by Q in Drop #1680 crossing Portland Street toward the location of the Western Pacific Kindergarten, operated by RYB Education, Inc. in Hong Kong, a school which has reportedly been connected to child sex trafficking. From a Bloomberg Magazine article on Getz: “Mr. Joel A. Getz has been Independent Director at RYB Education, Inc. since September 2017. Mr. Getz serves as the Senior Associate Dean for Development and Alumni Relations at the Yale School of Management. From 1990 to 1997, Mr. Getz was the Co-founder and President of Rim Pacific, a manufacturing and distribution firm focusing on art reproductions. Mr. Getz served as a Director of Development for the William J. Clinton Foundation in New York and was President of the Mayor’s Fund to

Advance New York City. Mr. Getz's additional previous work experience includes university fundraising at Stanford University, where he was associate director of The Stanford Fund and then a major gifts officer, both for the university and for the Graduate School of Business. Sara Bronfman: (INFO) Daughter of billionaire Edgar Bronfman Sr., heiress to the Seagram's fortune. Sister of Clare Bronfman. Heavy donor and friend of Clintons and NY politicians. (See HRC, Bill Clinton, Keith Raniere, Lauren Salzman, NXIVM, Pizzagate, Sara Bronfman, Vanguard).

- **Vanguard:** (INFO) NXIVM Cult name used by Keith Raniere. (See HRC, Bill Clinton, Keith Raniere, Lauren Salzman, NXIVM, Pizzagate, Sara Bronfman, Vanguard)

Clickbait: (#1711) Articles, headlines, and websites intended to attract (bait) Internet users (clicks) for the purpose of making revenue—including rotational ads from multiple advertisers which pays websites for “impressions” (eyes of viewers that simply fall on their ads) such as those provided by Google to individual websites or from the sales of products or publications from the website itself—by enticing the user to click on a link to visit a website. From a historical perspective, the techniques employed by clickbait authors can be considered derivative of yellow journalism, which presented little or no legitimate well-researched news and instead used eye-catching headlines that included exaggerations of news events, scandal-mongering, or sensationalism. For sites that thrive on thousands of click-throughs to content, many authors see the use of clickbait as a means to tap into human psyche by crafting these eye-catching headlines.

- **CoC:** (#722 #725, #1711) Chain of Command. (Original thanks to FreeQ PMAS) In Q Drop #725, Q makes one of the most important statements ever made in a drop.
“Ask yourself, if a missile was launched by rogue actors, what would be the purpose?
Ask yourself, what would/should immediately start a WAR?
Ask yourself, would the PUBLIC understand the following statement: “Rogue actors (Clowns/US former heads of State) initiated a missile launch in order to ‘force’ the US into a WAR/conflict against X?”
Be the autists we know you are.
Those who cannot understand that we cannot simply start arresting w/o first ensuring the safety & well-being of the population, shifting the narrative, removing those in DC through resignation to ensure success, defeating ISIS/MS13 to prevent fail-safes, freezing assets to remove network-to-network abilities, kill off COC to prevent top-down comms/org, etc etc. should not be participating in discussions.—Q
 In Q Drop #1711, Q is now referencing the fact that Deputy Attorney General Rod Rosenstein, on the official Department of Justice Chart of Organization, the person to whom every other Department and person employed by the Department of Justice, including the U.S. Attorneys in every district, of which U.S. Attorney John Huber for the Utah District is one, reports. None report directly to Attorney General Jeff Sessions. (See DOJ, Sessions, John Huber, Kansas, RR).
- **Pixelknot:** (#1715) Pixelknot is a method of imbedding short messages in photographs utilizing Android. A form of Steganography, Pixelknot is a more limited means of surreptitiously passing data. (See Android, Steganography).
- **Steganography:** (#1715) Steganography is a form of cryptography in which data is hidden inside other data such as audio, an image, financial data, or any other kind of information. The data used in steganography can be cleartext or another image, audio file, database, etc., and be either unencrypted or encrypted before being imbedded in the data it is hidden within the external file. Q gave an example in Q Drop #1715 of a simple form easily done with images using Android called Pixelknot. (See Android, Pixelknot).

- **Zuckerberg:** (#1718) Facebook founder and CEO Mark Zuckerberg. As of July 26, 2018 stockholders are demanding the ouster of Zuckerberg from his position after the loss of over \$100 billion in stock equity in just a few days due to loss of membership from censorship, purging, and fake news scandals. (See Facebook, MZ).

"He who does not deny, admits."

The master asks the question and the slave or servant answers.

One who is in a position of being the servant cannot question the demands of the master.

Build the wall and crime will fall....

The lesson liberals need to learn is that despite their arrogance, they do not have the power to alter reality.
